

GOD *moments*

“Jan and I feel that our photography is our ministry. When we visit places like The Grand Tetons National Park, Alaska, and San Antonio, we feel the presence of God. We see the beauty he has created in the animals, birds and landscapes. We attempt to capture that beauty with cameras and present it to people who may never see it. At one show, we were discussing whether or not we should continue. Shortly

after our discussion, a man came up to us and said that one of our pictures should be called *A Moment in Time*. He said he didn't have the money to buy the picture, but he was going to save to buy it. It was obvious that he couldn't afford it, so we gave him an 8X10. He teared up, told us he loved us, and hugged us. That moment told us we were doing the right thing.”

Wayne & Jan Steppy

“Tell of all God's wonderful works.”
Psalm 105:2
